PROFILE

Holding a degree in Systems Analysis and Development, I've been focused on back-end development using PHP. I've been working since 2009 in the web development area, performing tasks on all software lifecycle stages (requirement analysis, design, development, testing, and maintenance), besides training and support. Experienced with continuous delivery, agile methodologies, and front-end and infrastructure languages (puppet, servers, AWS and others).

EXPERIENCE

Systems Analyst, Digipix Gráfica Digital S/A

May 2015 – July 2016 (1 yr 3 mos) | Osasco, Brazil

- Important role in Zocprint's transition from Rocket Internet to Digipix;
- Development of REST APIs for systems migration;
- Covering the application with unit tests;
- Version control and software deployment;
- Infrastructure and Amazon Web Services;
- Training of staff on Zocprint's technologies.

Mid-level Web Developer, Zocprint - Rocket Internet SE

July 2013 – April 2015 (1 yr 10 mos) | Sao Paulo, Brazil

- Development with Symfony/PHP and Doctrine/MySQL;
- Back-end development from design to code implementation;
